WORK SESSIONS

- * Review and discuss the construction and/or repair of sidewalks throughout the City of Beaumont

Kyle Hayes, City Manager, stated that the City installs sidewalks when a new roadway is constructed or when an existing roadway is reconstructed. This has been the practice for about 12 years, with Council's approval. Roads constructed prior to this practice being put into effect have no sidewalks. When there are total reconstruction of streets, which includes tearing down the existing street and reconstructing new water and sewer lines and drainage, as well as road surface, then there are sidewalks installed as well. Sidewalk installation has been requested on 4th Street on one side for a five foot length, which would cost approximately \$87,000 and another on Fannett Road from Ozen High School to the Theodore Johns Library, which would cost approximately \$350,000. Administration and staff agree that sidewalks need to be installed in as many places as possible. The issue is that this is not budgeted for and how would Council like to proceed. It was brought up that a sidewalk program should be implemented, which would then involve borrowing funds and prioritizing locations.

Councilmember Wright left the meeting at 4:08 p.m.

- * Review and discuss a proposal received from the Striesfeld Group, LLC related to the possible management of the Tennis Center located at the Athletic Complex

The City Manager stated that there was a concensus by Council to request proposals for the possible management of the Tennis Center, located at the Athletic Complex. The City sent the

RFP out to approximately 15 groups. We received one proposal from the Striesfeld Group.

Eric Striesfeld, of the Striesfeld Group, stated that his group is here to better Beaumont and to provide something for the citizens to gravitate to. He plans to implement programs to bring more citizens to tennis, such as teaching tennis within the schools, offering group and individual lessons, leagues, summer camps, drawing more tournaments, raising scholarship funding and expanding court hours. Mr. Striesfeld believes that a partnership, not a privatization, with the City will elevate the level of service to the citizens. The facility is underutilized and implementing these programs will not only benefit the citizens, they will draw funds through restaurants and hotels.

Councilmember Wright returned at 4:29 p.m.

- * Review and discuss the Consolidated Grant Program's 2016 Annual Action Plan and Budget

As mandated by the U.S. Department of Housing and Urban Development, City Council has conducted public hearings and work sessions in previous years prior to adopting the City's Annual Action Plan. Community Development Staff, along with the Community Development Advisory Committee, hosted Public Hearings in order to receive public comments on the process and activities related to the Preliminary 2016 Annual Action Plan. The proposed Preliminary Budget reflects allocations of \$1,266,349 in CDBG funding, an estimated \$100,000 in Program Income and \$367,763 in HOME funding. Prior to its submission to HUD for approval, City Council will consider adopting the final Annual Action Plan on or about April 26, 2016.

City Manager, Kyle Hayes, addressed the concerns that some Councilmembers had due to the Public Service line item only having \$60,000, which has been drastically reduced over the past 5 years. Staff recommendation is to take \$20,000 from the Minor Repairs Administration line item and move it into the Public Service line item to provide additional monies. This will not cause an issue as the staff has been downsized from 5 people to 3 people.
